**& Federal Emergency Management Agency (FEMA)**

#### **Course Description:**

This class is provided by FEMA in partnership with KYEM. This course is designed as an introduction to the fundamental concepts of benefit-cost (BC) analysis. Participants will learn how to obtain BC data and conduct analyses using the basic versions of the riverine and coastal A-zone software modules. This course will not teach how to conduct level-two BC analyses. The course will begin ***promptly*** at 8:30 A.M and conclude at 5 PM (Eastern) each day.

#### **Student Criteria:**

The primary audience for this course includes personnel of local jurisdictions, tribal governments, and Private Non-Profit (PNP) organizations that are eligible applicants for Unified HMA grants; State mitigation staffs responsible for assisting Unified HMA sub-applicants; FEMA employees who assist State mitigation staff and/or who are responsible for monitoring Unified HMA grant awards; and staffs of public or private sector organizations that offer consulting services to Unified HMA grant applicants. Other personnel involved in conducting BC analyses may also apply.

#### **Special Notes:**

Participants must have knowledge of mathematics (basic algebra and percentages) and computers (Windows and spreadsheet programs). ADVANCE REGISTRATIONS ARE ENCOURAGED and should be received by July 24<sup>th</sup>, 2015. You are considered accepted as a student in this class upon receipt of your registration information so you will not receive a letter acknowledging that acceptance. Meals, lodging, and travel arrangements/expenses are the responsibility of the student and will **NOT** be reimbursed by KYEM or FEMA.

#### **Registration:**

Registration application for the course can be completed using the following link: <http://bit.ly/KYEMFEMATraining> and click on register. Students will be notified if the course is cancelled. For this reason, it is imperative that you provide accurate contact information.
